# INTERNET OF THINGS TODAY

[WWW.IOT-TODAY.COM](http://WWW.IOT-TODAY.COM)

## About IoT Today

IoT Today is a media brand serving the Internet of Things market.

Based around the website, IoT-Today.com, the media components consist of a IoT Today website and news service, live events, publications including a monthly e-newsletter, social network sites, and market data services. The events include Internet of Things North America and IoT West.

“The Internet of Things is the next big wave of disruptive technology as the number of devices connected to the internet and The Cloud is skyrocketing,” said David Webster, president of Webcom Communications Corp. “The presence of billions, some say trillions of connected devices will transform the performance capabilities of organizations and create new business opportunities throughout society. IoT Today is positioned to be the world’s leading media brand devoted to business and technology development of this dynamic market.”

Based in the Denver Technological Center of Greenwood Village, Colo., IoT-Today.com is a branch of Webcom Communication’s connected world media tree. Other publications and events include: Remote-the Infrastructure Management Magazine, The Remote Conference, Antenna Systems and Technology and the Device Technology Conference (DeviceTech).

## Website Advertising

www.iot-today.com has thousands of visitors each month that are looking for news on the latest in IoT Technology. The website includes up to date, relevant and informative information for technical contacts in the industry, as well as for OEMs in need of the latest solutions for use in their products. Advertising on www.iot-today.com is a great way to reach potential buyers of your products and services.

## Monthly Rates

Size	1X	6X	12X
<b>A</b> Leaderboard 728 wide x 90 tall	\$1,600	\$800	\$525
<b>B</b> Skyscraper 125 wide x 600 tall	\$1,275	\$625	\$425
<b>C</b> Vertical Banner 125 wide x 240 tall	\$800	\$350	\$275
<b>D</b> Square Button 125 wide x 125 tall	\$325	\$175	\$125
<b>E</b> Logo Link 125 wide x 50 tall	\$250	\$200	\$150

Banners should be in jpg, gif, animated gif, or flash format, 72 dpi, RGB color and the size specified above. All positions are sold on a 50% alternating basis. Add 30% to rate for 100% basis.

## eNewsletter Advertising

Twice a month the IoT-Today eNewsletter goes out to 20,000 readers that are looking for the latest in IoT technology. These readers include technical contacts in the IoT industry, as well as OEMs in need of the latest solutions for use in their products. Advertising in the eNewsletter is a great way to reach potential buyers of your products and services.

## Internet of Things North America

Internet of Things North America is a world's premier IoT education event. Hosted in the easily accessible city of Chicago, IoT North America covers advanced connectivity and cloud-based monitoring/control of devices, facilities, automobiles and enterprise operations. The 2016 event will once again be held in the Windy City on April 13-14, 2016.

“The 2015 Internet of Things North America event was a great success and we’re happy to announce the dates for the 2016 IoT North America event. With the help from great sponsors such as Intel Corp., B&B Electronics and Opto 22, as well as speakers from Oracle, Cisco, Schneider Electric, IBM, GE and Dell, IoT North America was a great success,” said Nick Depperschmidt, Conference Chairman, Internet of Things NA. “This has spurred us to expand the program for the 2016 show and return to the central Chicago-land area. We hope to see you there!”

**Internet of Things North America will consist of two days of educational sessions showcasing solutions in:**

- Machine and Device Connectivity
- IoT Standards and Standardization
- Big Data: Data Acquisition & Analytics
- M2M Apps
- Building a Business Model for IoT
- Enterprise-wide Connectivity
- Networking: Wireless, Wired, Fiber & Telemetry Networks
- Cloud-based monitoring and control of equipment, assets, facilities & operations
- Integrating Multiple Networks & Communications Systems for Maximum Interoperability
- Remote & Smart Service Management

## Internet of Things West

Internet of Things West ([www.iiot-west.com](http://www.iiot-west.com)) is a new event covering advanced connectivity and cloud-based control of devices, equipment, facilities and enterprise operations. This conference will be the second “Internet of Things” trade show hosted by Webcom Communications, with IoT West serving the western US, Canada and Mexico. It will be held November 3-4, 2016 in Las Vegas, Nev. co-located with two other complementary events: DeviceWerx, Remote Monitoring and Control 2016 and the 2016 Antenna Systems Conference.

“Our Spring event, Internet of Things North America, has demonstrated the intense interest by end-users in commercial, industrial and government markets seeking to harness the enormous advantages of IoT technologies for improving their operational performance, as well as by product and service providers seeking to capture new business development opportunities,” said Nick Depperschmidt, Conference Chairman, Internet of Things West. “This venue will bring the same educational focus and technology showcase to a convenient location in the Western US.”

### It will consist of two days of educational sessions showcasing solutions in:

- M2M and Machine Intelligence
- Cloud-based Monitoring and Control of Equipment, Assets, Facilities & Operations
- Big Data: Acquisition & Analytics
- The Connected Car
- Wearables and Health
- Integrating Multiple Networks & Communications Systems for Maximum Interoperability
- Smart Service Management
